EXPERIENCE

•Kynhood

Jun 2024 – Present

Product Designer

Chennai

- **Events feature (0 to 1):** Designed beautiful and intuitive user interfaces for web and mobile across 3 platforms and operator portals – from user research and interaction design to responsive, accessible UI. Feature crossed **3 Cr GMV** within 8 months.
- Conducted user research, built user flows and journeys, and created high-fidelity prototypes to validate design concepts – grew organic retention from **10% to 31% (3x)** using Mixpanel and Clarity to drive data-informed iteration.
- Designed with a customer-centric approach and empathy throughout; ensured pixel-perfect developer handoff, reducing back-and-forth with engineering.
- Automated OPS and Legal workflows through design, eliminating manual coordination overhead. Applied Lean UX – prototyped independently before engineering review, using AI-assisted prototyping tools (Cursor, Claude).

•Sparks

Feb 2024 – Jun 2024

UX Design Intern

Remote

- Built a computational design system from scratch – defined reusable UI components, extended the style guide, and applied design thinking to standardise UI patterns across the product team.
- Contributed to PRD creation; participated in end-to-end product development including user research, secondary research, competitor analysis, design validation, and usability evaluation.

•Cloud Counselage

Feb 2022 – Aug 2023

UX Design Intern

Remote

- Led product design for web and mobile; shipped an MVP independently using low-code tools (Framer, Wix) – drove from wireframes and clickable prototypes to launch without waiting on engineering.
- Applied information architecture, grid-based systems, visual design, and interaction design principles with a focus on empathy and intuitive user experiences; developed skills in typography, color theory, spacing, layout, and visual hierarchy.

EDUCATION

•B.Tech – Artificial Intelligence and Data Science

2020 – 2024

Sri Manakula Vinayagar Engineering College

87%

TECHNICAL SKILLS AND INTERESTS

Design Tools: Figma, FigJam, Illustrator, Canva, Adobe XD, Sketch, Photoshop

AI-assisted Prototyping: Cursor, Windsurf, Claude – used to build and iterate on working prototypes independently, ahead of engineering handoff

Low Code: Framer, Wix, Lovable

Design Analytics: Mixpanel, Clarity

Design Practices: Responsive design, Accessibility (WCAG), Typography, Color theory, Spacing, Visual hierarchy, Grid-based systems, Information architecture, Interaction design, Usability testing, User needs validation, High-fidelity prototyping, User journeys, Customer-centric design, Empathy-driven design, Design thinking, Mockups, Pixel-perfect execution

Other: Basic HTML/CSS, MS Office

Areas of Interest: Design Systems, MCP-Figma Integration, IoT & Connected Product UX, Competitor Research

Certifications: UX – Accenture, GUVI, Meta; Microsoft – AZ900, PL900

ACHIEVEMENTS

•**Designathon25 – Lollypop Design Studio**, Selected as Top 6 among 15 Teams

Aug 2025

•**Hackfest2022 – PSG iTech**, Selected as Top 25 among 600 Teams

Sep 2022

•**Hackathon2022 – Cloud Counselage**, Won 1st prize in National level hackathon

Apr 2022
